ONE USC SAFETY VISION **USC** Department of Public Safety

Download Today

LiveSafe, managed by the USC Department of Public Safety and the USC Department of Emergency Planning, is a free downloadable app that mobile users can use to initiate contact with emergency responders around the University Park and Health Science campuses. The app is powered by LiveSafe, Inc. and has versions for iPhone and Android devices.

KEY FEATURES OF THE APP INCLUDE:

- **Immediate "push button" calls** to either the Department of Public Safety or 911 for immediate response during an emergency.

- **Anonymous messaging for reporting** suspicious behavior, unsafe situations, or any other safety concerns.

- **"Safewalk" function,** that allows users to alert selected friends that they are on the way to a destination (for example, "On my way back to Parkside from Leavey Library, be there in 15 minutes") so they can monitor their progress and help keep them safe. Note: Location services must be enabled on devices for the function to operate.

ACTIVATE IN 3 EASY STEPS"

1. Get the app by downloading "LiveSafe" from Google Play or the Apple iTunes Store
2. Sign up with your name & info
3. Select "University of Southern California" as your school

Also, be sure to sign up for TrojansAlert, USC's emergency mass notification system at trojansalert.usc.edu
